

3-D Dresser

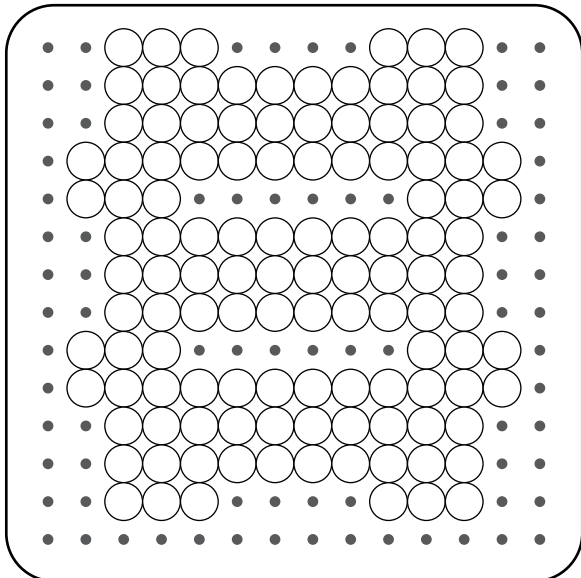

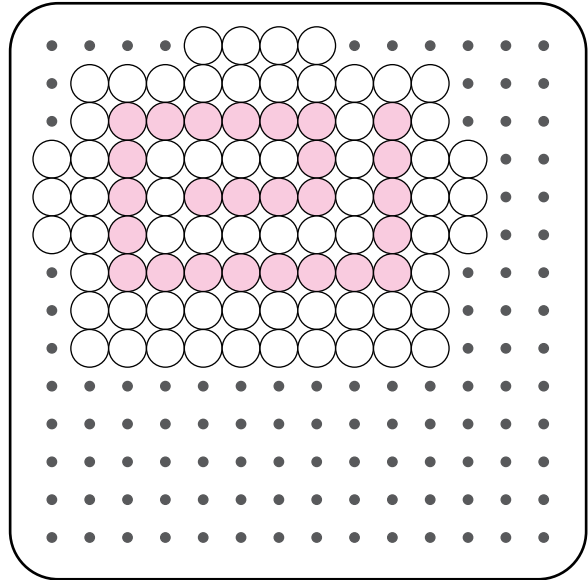

NOTE: You will also need about a yard of clear lacing to assemble this project.

Instructions

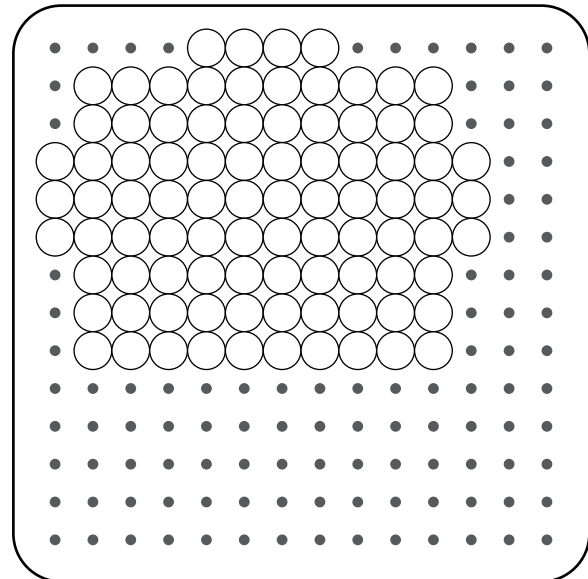

1. Using the small square pegboard, place all the beads for your project.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center. On a 3-D project such as this, **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make assembly difficult. Be particularly careful with the drawer sections where there is a single row of beads—you want the beads to fuse together but you will need the holes to stay open to do the lacing part of the assembly.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboard and ironing paper are reusable.

① Top

② Back

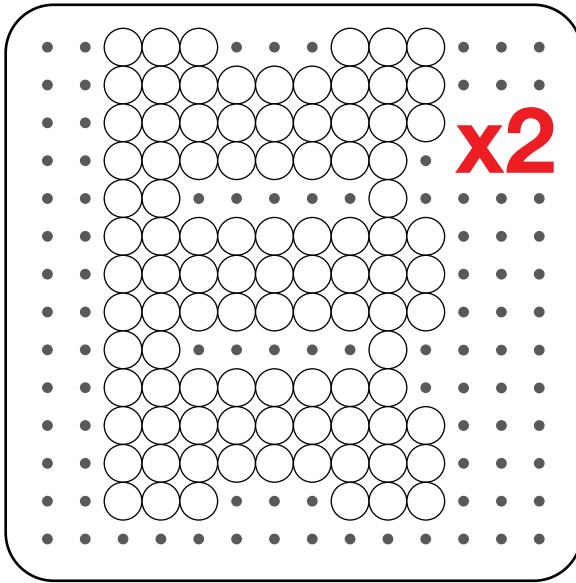

③ Bottom

Bead Colors/Qtys Needed:

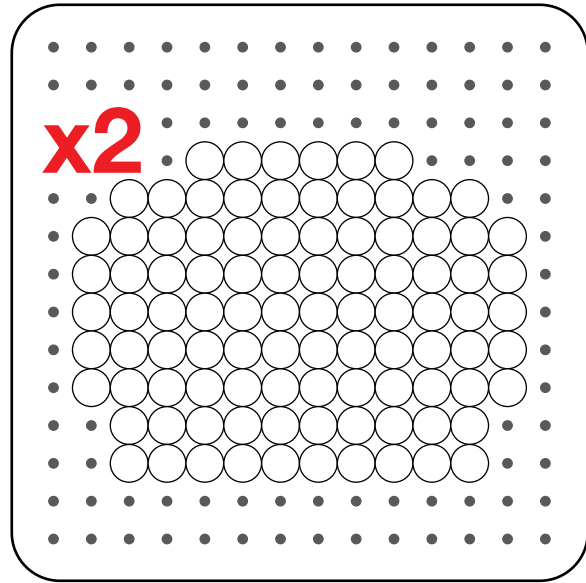

- Light Pink - 146
- Bubblegum - 120
- Pink - 120
- Purple - 12
- White - 658

1 Each of the pieces (except the drawers) has been numbered. Follow the diagram at left to slide the notches into the slots as shown.

2 Drawer Assembly: Use clear lacing or matching thread (shown here as black) to "sew" together the pieces of each drawer.

3

Slide in the drawers!
