

# 3-D Turkey Place Cards

## YOU WILL NEED:

<b>Pegboards:</b>	<b>Bead Colors:</b>	
Small Circle	Red Cheddar Light Brown Brown Creme	Rust Cranapple Orange Gold Metallic Tan

You will also need yellow and tan cardstock, a small hole punch, thread, black marker, muffin tin, silicon muffin tin inserts or non-stick cooking spray, and a quick-drying permanent adhesive to complete your projects. Patterns shown are for one placecard. Multiply bead amounts for the number of placecards you wish to create.

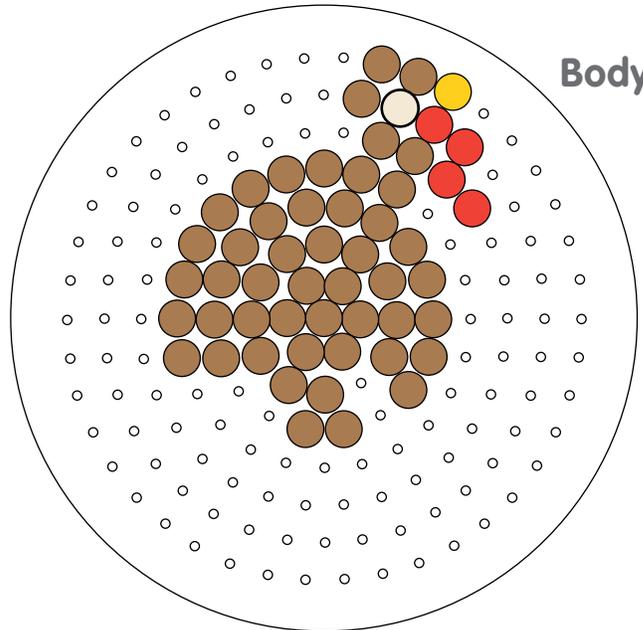

### Instructions

1. Place your beads on the pegboards as shown. If you are using a clear pegboard, slide the actual-size pattern underneath it.
2. Ask an adult to fuse your designs—see Fusing Instructions on page 2.
3. **Assembly:** Create one set of turkey parts for each place card. Continue with assembly on page 2.

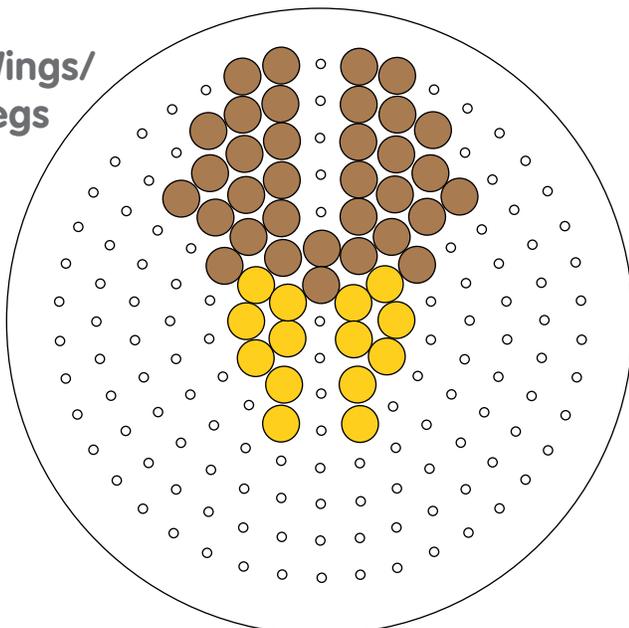

#### Bead Color/# Needed:

- Red - 4
- Cheddar - 27
- Light Brown - 82
- Brown - 33
- Creme - 1

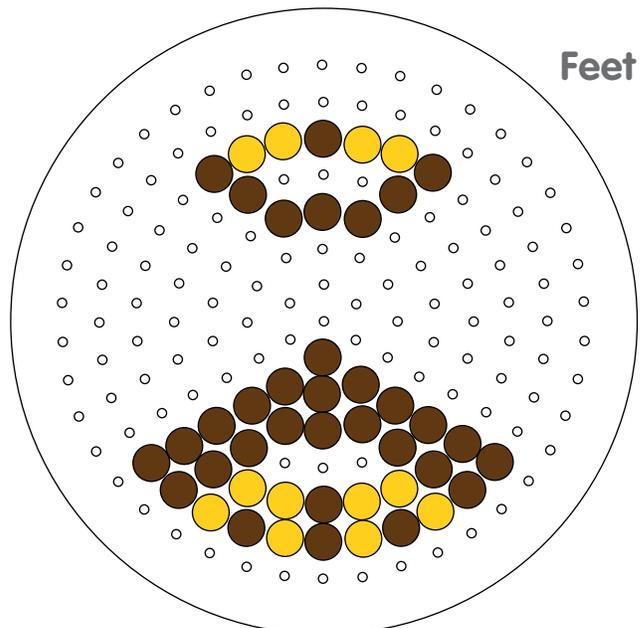

Body

Wings/  
Legs

Feet

### Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

Note: Beads need heat for about 10-20 seconds per side to fuse evenly. Depending on the size of the project, additional heating time may be required. Since you are working on a 3-D project, DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make assembly more challenging.

## Tail Feathers (Oven-Melty Technique)

**Warning to Parents: the baking must be done by an adult only.**

1. To create the tail feathers for your Turkey Place Cards, use a muffin tin and set your oven to 300°. If you have silicon inserts for muffin tin, use those for each tail feather cup you are creating. If not, spray the muffin tin thoroughly with a non-stick baking spray.
2. Create an autumn colors bead mix with all the colors listed for this project. Pour enough of the autumn bead mix into the muffin pan to just cover the bottom of each muffin cup, then pat some in place going up the sides about an inch. Carefully place the muffin tin in the preheated oven and allow the beads to melt. Check the results every few minutes and pull the tin out when you are happy with the effect. The beads will flatten and stretch when melted, creating an interesting texture. Remove the tin from the oven and allow it to cool. If you used non-stick spray, carefully wash the cooled pieces thoroughly by hand with dish soap.

## Assembly

1. Center and layer the smaller feet piece onto the larger one, and glue in place.
2. Turn the body at right angles to the wings/leg piece and insert into the slot. Insert the legs into the opening in the feet piece and glue.
3. Turn the tail feathers piece on its side and glue the turkey's body to the inside of the cup.
4. Cut a small rectangle of yellow cardstock and glue a slightly smaller piece of tan cardstock on top. Punch two small holes in the upper corners. Tie a short thread hanger through the holes. Write the name on the tag and hang it around the turkey's neck.
