

## Instructions

1. Use the small square, circle, hexagon, and heart pegboards for your project. If you're using a clear pegboard, slide the actual-size pattern underneath it. Place all the beads for the design.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboards and ironing paper are reusable.

You will also need gold sequins, craft glue, an 11" x 17" piece of cardboard, and 25 Velcro® circles to complete your project.

**ASSEMBLY**

Glue the gold sequins to the star which will be piece #25 at the top of the tree.

Print pages 5 and 6 out on 8.5" x 11" paper. Trim and tape them together and mount onto your 11" x 17" piece of cardboard.

Apply Velcro® circles to the tree just below each number, with the one for 25 above the number. Apply the other halves of the Velcro® circles to the ornaments.

Each day of December, add another ornament to your tree. It doesn't matter which one, but save the star for last. If you want to make a game of it, you can put the ornaments in a hat and have your child pull out an ornament without looking. Each day will be a surprise! If they can guess what the piece is just by touch, you can reward them with a cookie!
