**Fusing Instructions—Only Adults Iron**

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

**NOTE:** Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required.

A colorful illustration of a fairground or amusement park scene. In the foreground, there's a yellow ticket booth with a blue sign that says "TICKETS" in white capital letters. To the right, there's a red popcorn stand with a yellow awning. The stand has a menu board that says "Small... 5", "Medium... 7", and "Large... 12". There are three large buckets of popcorn on display. Behind the popcorn stand, there's a small building with a purple and white striped awning. In the background, there are green hills and trees. A bunch of colorful balloons (red, yellow, blue, green, purple) is tied to the ticket booth. The sky is blue with white clouds.
