- Evergreen x 35
- Toothpaste x 21
- Tan x 11
- Light Brown x 16
- Brown x 10
- Black x 10
- White x 77

Cording

Tape one end of the strands to a table or counter. Twist the other end 80-100 times until the strands are tightly twisted. Grab the middle with one hand. Bring the ends together with your other hand. Release the middle and allow the strands to twist. Slide your fingers up and down the cording to even out the twists. Knot the ends together.
