

1. Some of the patterns require multiple pegboards to be assembled together as shown below or otherwise as shown throughout the project sheet. Cut these patterns out and tape together in the same way as the pegboards are assembled.

If you are using clear pegboards, slide the actual-size patterns underneath them. Place your beads on the pegboards as shown.

2. Ask an adult to fuse your designs—see page 4 for further instructions.

Bead Colors:

Hot Coral - 32 Raspberry - 15 Cranapple - 5 Orange - 69 Cheddar - 39 Creme - 120 Yellow - 66 Prickly Pear - 26 Kiwi Lime - 16 🔵 Light Green - 24 Parrot Green - 165 Dark Green - 356 Pearl Light Blue - 30 Toothpaste - 26 Turquoise - 13 Dark Blue - 87 Blueberry Cream - 34 Periwinkle Blue - 173 Plum - 14 Purple - 48 Rust - 6 Brown - 307 Pearl Silver - 334 Grey* - 1241 Dark Grey* - 1169 Black* - 1246 O White - 6 Raspberry Pearl Stripe - 20 Fire Stripe - 36 🚫 Gold Pearl Stripe - 40 Prickly Pear Pearl Stripe - 50 Cucumber Stripe - 404 Starry Nite Stripe - 500 Royal Blue Pearl Stripe - 37 😚 Grape Stripe - 32 Monkey Stripe - 602 Silver Pearl Stripe - 35 Eebra Stripe - 49

* You will need 2 bags of these colors.

Find these pattern sections on pages 2-5.

Fusing Instructions-Only Adults Iron

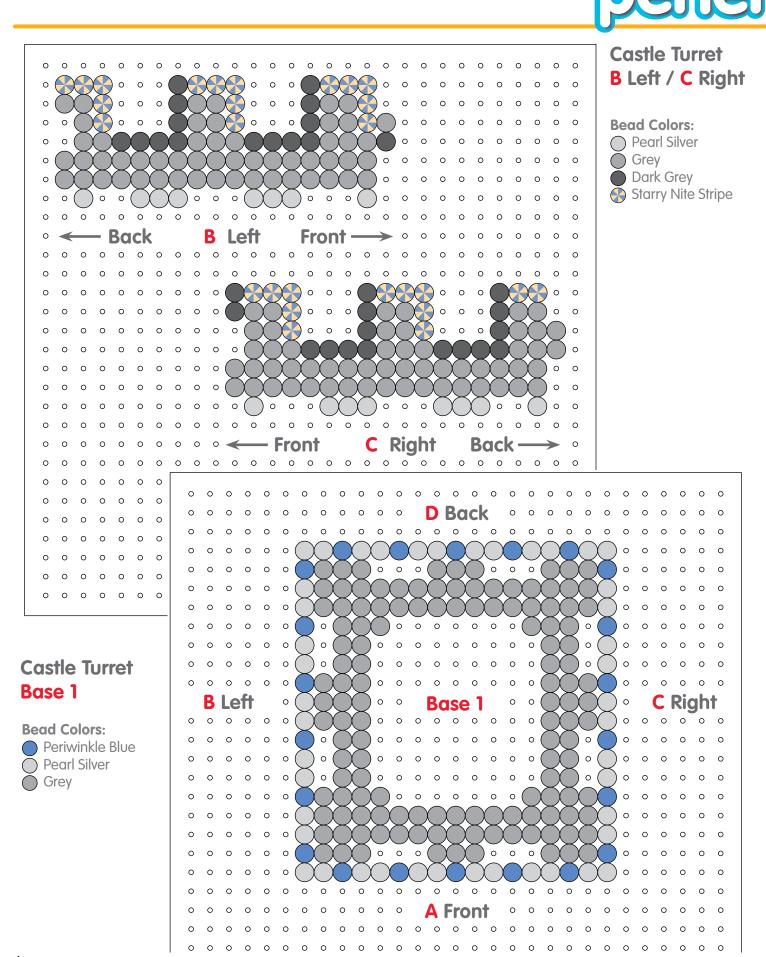

- 1. Place your pegboard on a flat, heat-safe surface.
- 2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
- 3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the

project, additional heating time may be required. DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.

Assemble two pegboards vertically to work all four sides of the tower here and on page 9. Cut out and assemble the patterns the same way.

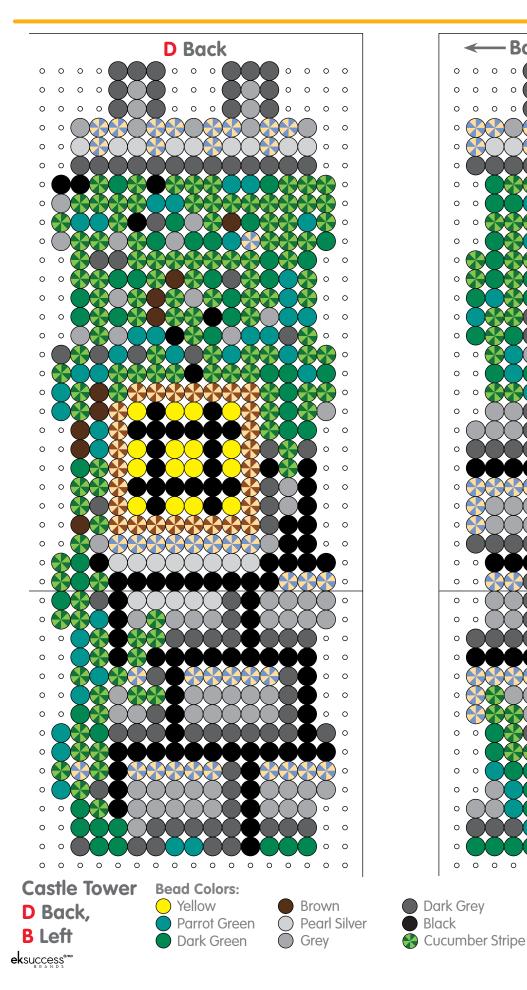

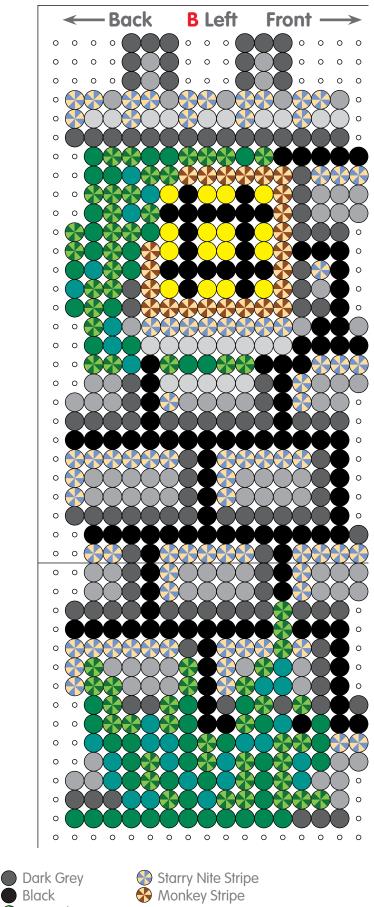

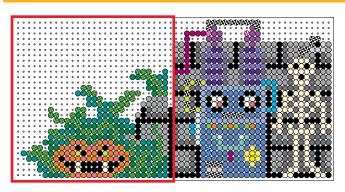

(

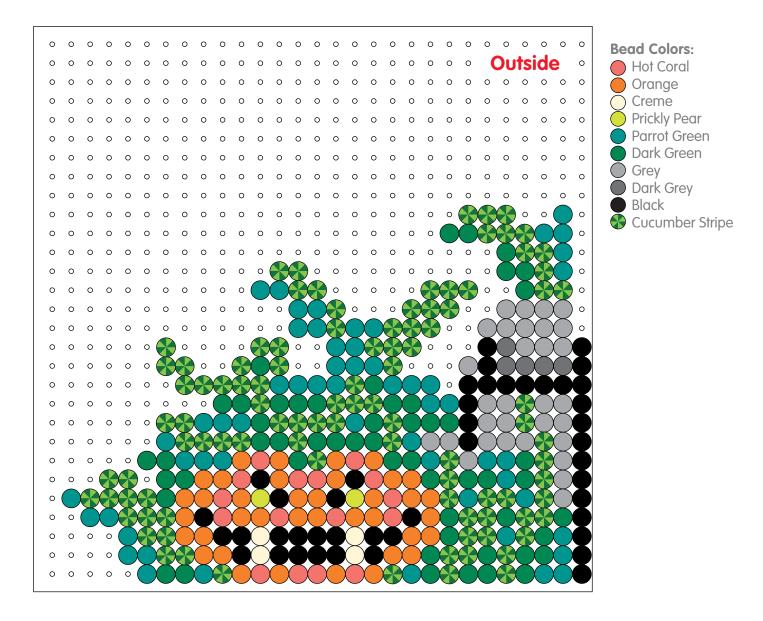

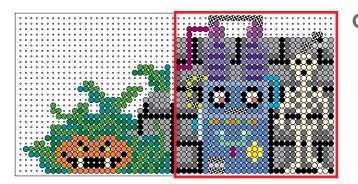

Cross Wall

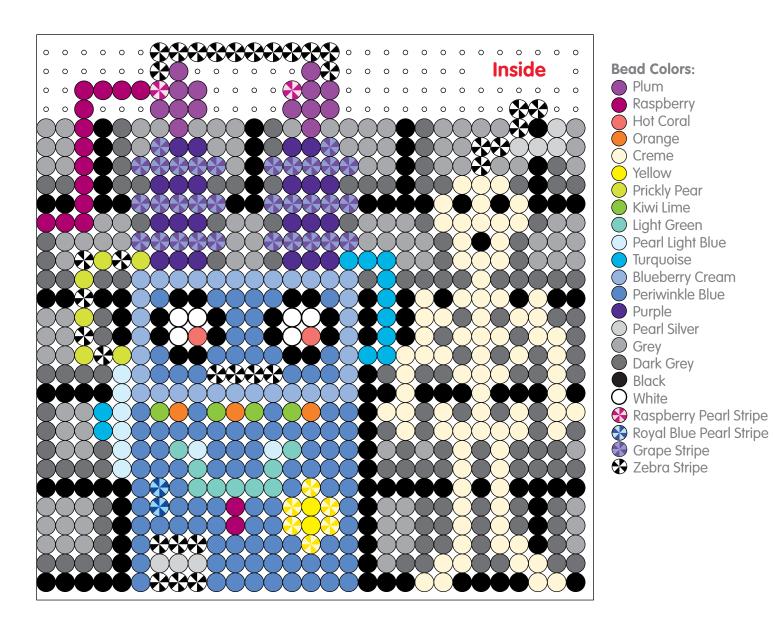

This wall section crosses the back wall so that the pumpkin is outside the castle and the laboratory is inside the castle. Assemble two pegboards side by side as shown at left. Cut out and assemble the patterns the same way.

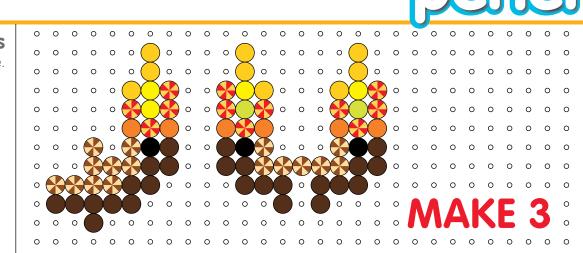

Cross Wall

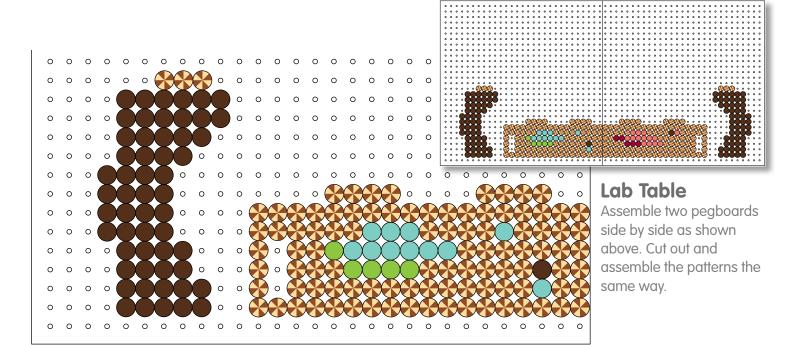

Torches Make three of each piece.

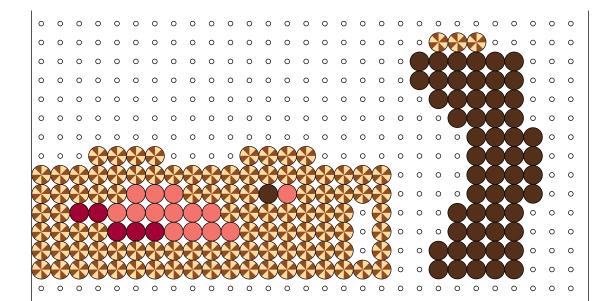

Bead Colors:

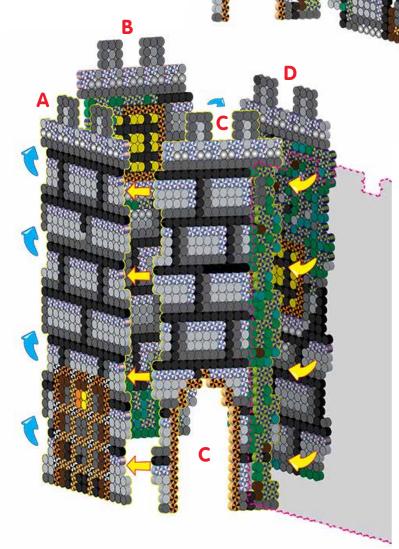

Creepy Lab ASSEMBLY

0

Back Wall / Tower Insert the notched ends of the **back wall** through the slots of the tower piece **C**. Make sure the walls are perpendicular and touch.

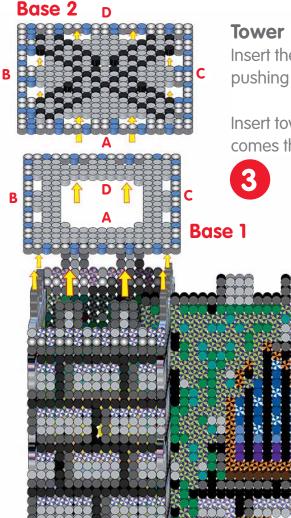

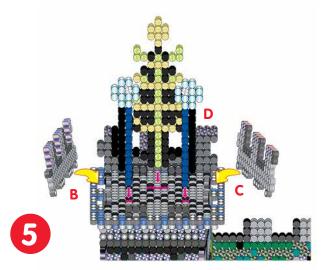

2 Back Wall / Tower

Connect the tower pieces **A**, **B**, and **D** with tower piece **C** to complete the tower.

Creepy Lab ASSEMBLY

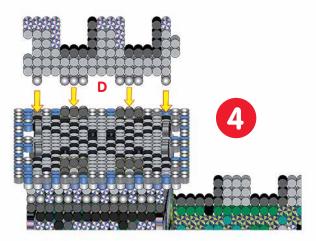

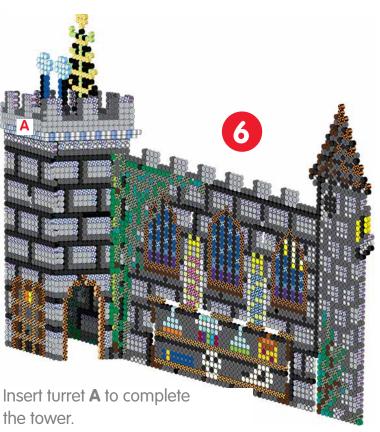

Insert the tabs of turrets **B** and **C** through the slots as with piece **D**, connecting the sides with piece **D**. Insert the **Power Generator** pieces in the slots of Tower Base 2.

Insert the tower **Base 1** over the tabs of the assembled tower walls, pushing down completely until 2 rows of beads come through the slots.

Insert tower **Base 2** over the tabs in the same way until 1 row of beads comes through the slots. This will help support the tower.

Insert the tabs of turret piece **D** through the slots along the back of the tower.

Creepy Lab ASSEMBLY

Torches and Lab Table

Final Assembly

Insert the tabs of the Lab Table into the slots of the **Back Wall**. Add two of the **Torches** in the same way above the table. The third **Torch** is placed through the opening in the Tower.

8

Slide the Crossing Wall through the slot of the **Back** Wall to complete your Creepy Lab.
