- Red
- Cheddar
- Cucumber Stripe

**Fusing Instructions—Only Adults Iron**

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.

ASSEMBLY

1. Cut a piece of black cardboard to 2 1/2" x 15".
2. Position the letters the way you like on the cardboard—they should extend beyond the edges of the cardboard at different angles. Secure them to the board with foam adhesive.
3. Position the sombrero behind the board at an angle. Lay a ruler on the sombrero at the edge of the cardboard to use as a guide. Place foam adhesive below the ruler's edge, then attach the front of the sombrero to the back of the board. Glue tiny pompoms along the edge of the brim. To use the sign, either use a small easel or a thread hanger run through beads at the top of the sombrero.

Connect two large square pegboards to create the sombrero.
