Instructions

1. The main part of the Haunted House is created on 4 connected square pegboards assembled as shown at left below.
2. Cut out the individual pattern quadrants and tape them together so that you can see the whole design at once. If you're using clear pegboards, slide the actual-size pattern underneath them. Now place the beads for your project.

3. Ask an adult to fuse your designs—see 2 for further instructions.

4. Assembly: see page 7.

Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.

2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.

3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.
NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.

ASSEMBLY

1. Turn the side walls perpendicular to the front of the house. Slide the side walls into the slots of the house front.

2. Insert the columns into the slots in the floor with the pointed ends up as shown.

3. Connect the roof pieces at an angle, then insert the pointed ends of the columns into the small slots.

4. Connect the assembled front porch to the house by sliding the tabs into the slots as shown.

Your Haunted House is now complete. For an extra spooky look, place some battery-powered candles behind the house. Happy Halloween!
