The diagram at right shows how the design will fit on the joined pegboards. The charts for each square are shown at full size on the following pages.

## Instructions

1. Assemble FOUR large square pegboards as shown. Cut out the individual quadrants of the chart and tape them together so that you can see the whole design at once. Now place all the beads for your project.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboards and ironing paper are reusable.
