INSTRUCTIONS:

1. Connect the four pegboards. Cut out the pattern sections on the following 4 pages for the moon and graveyard background and tape together as indicated here.
2. Slide your pattern under the pegboards and place your beads.
3. Ask an adult to fuse your designs—see instructions below.
4. Complete the rest of the project pieces as indicated.
5. Assembly: see page 11.

Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

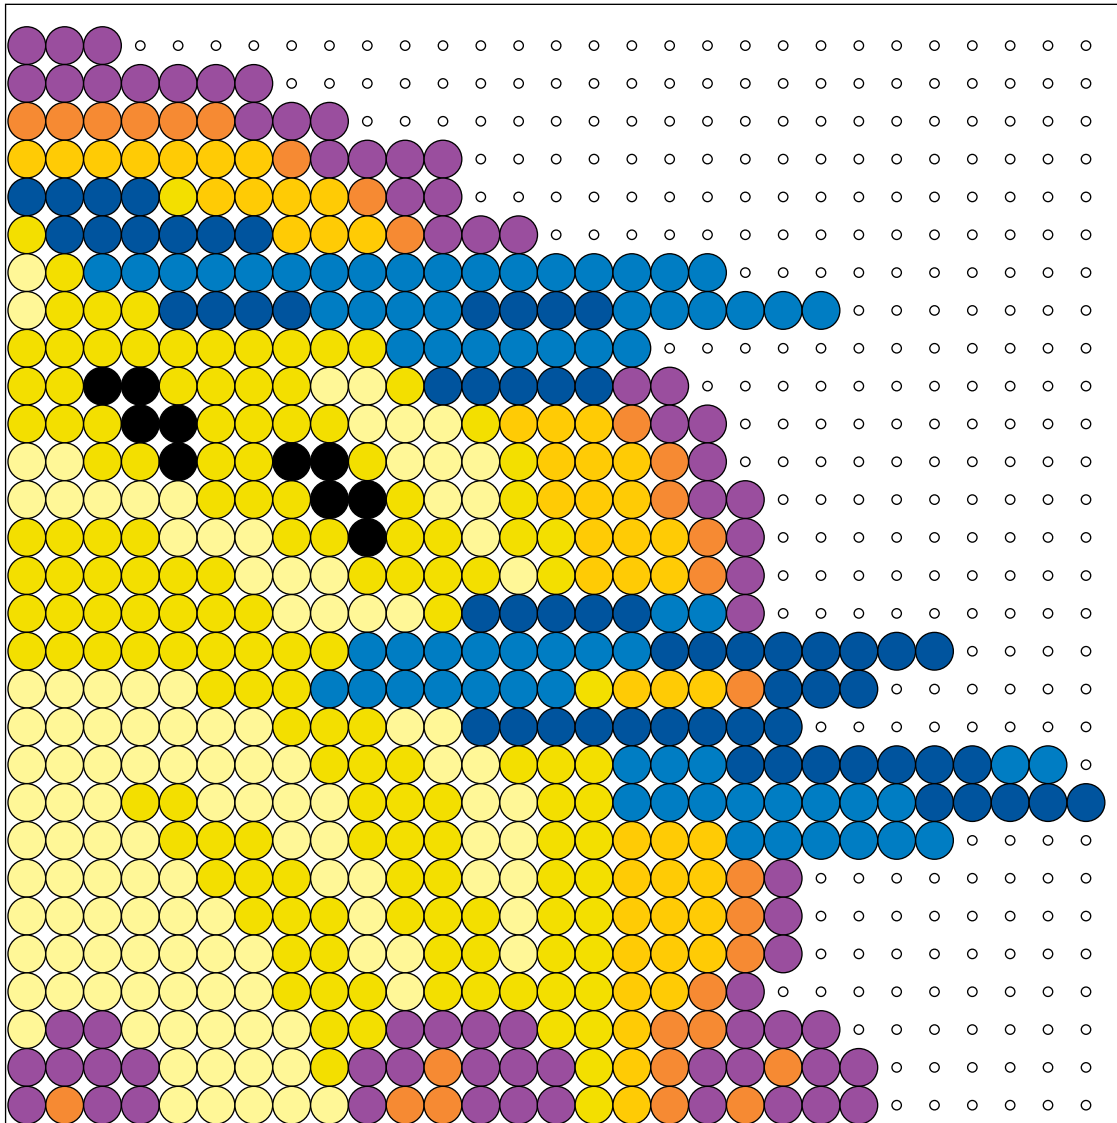

NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.

ASSEMBLY

Line up the slots on the two wing pieces with the slots on the background piece and slide together.

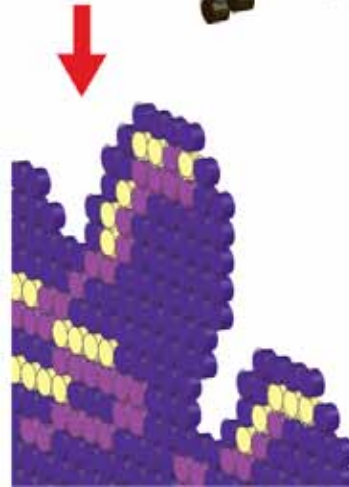

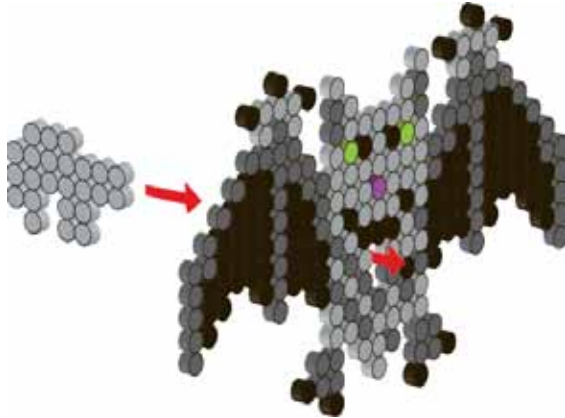

Line up the slot on the bottom of the tree trunk with the forward slot on the wing piece with the pumpkin. Slide together.

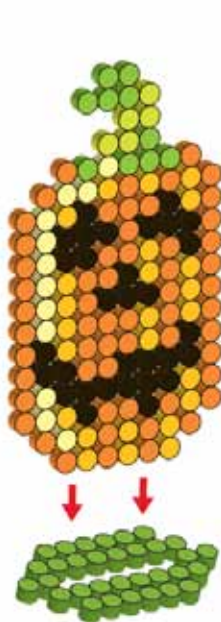

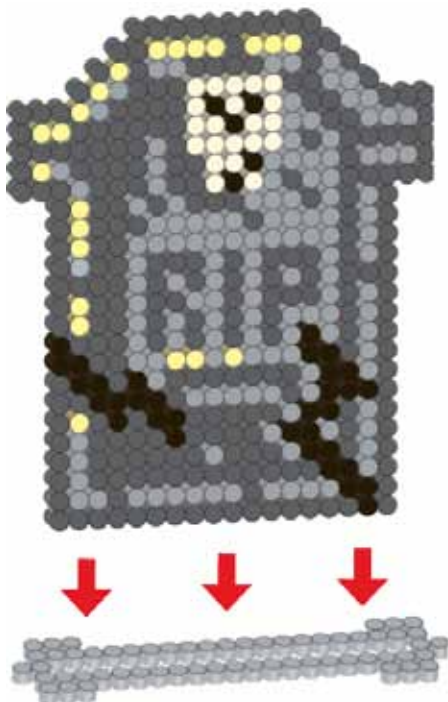

This is how the assembled background should look with the tree in place.

Insert the bat's hanger as shown through the slot in the bat's belly.

Slide the hanger onto the moon in the background.

For the remaining pieces, slide the bottoms of the tombstone and pumpkins into their stands. Arrange as shown in the photo for a really cool and creepy Halloween decoration!
