Mini Beads Gaming Earrings

perler

YOU WILL NEED:

Pegboard:
Mini Beads pegboard

Other:
Mini Beads tweezers
Ironing paper
Iron
2 ear wires
2 jump rings
Small needle-nose pliers

Bead Colors:
- Grey - 64
- Black - 36
- White - 140

Instructions

1. Slide the actual-size pattern under your clear pegboard and place your beads as shown.

2. Ask an adult to fuse your designs—see bottom for further instructions.

ASSEMBLY

1. Use the pliers to grasp and open the jump ring—don't pull outward to separate the ends; instead, open the ring by twisting the ends in opposite directions.

2. Slide the jump ring through the bead in the center top of the design, then slice on the tiny ring the ear wire. Close the ring by twisting the ends back together.

Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.

2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. When ironed properly, the beads will still have an open center. Let the design cool.

3. Remove the paper and bead design from the pegboard. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

Beads need heat for about 10 seconds per side to fuse evenly. Occasionally, additional heating time may be required.
