Instructions

1. Connect 4 boards in a square for your project. Slide the actual-size pattern underneath them. Place your beads as shown.
2. An adult should fuse the designs—see page 2 for further instructions.
3. Assembly: To display on a wall, choose an 8" x 8" frame with a coordinating mat. Mount the design onto the mat with a glue gun.

Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the pegboard. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely. Your pegboard and ironing paper are reusable.

NOTE: Beads need heat for about 10 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required.
