### Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

**NOTE:** Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.

## ASSEMBLY

1. Print this page onto white cardstock. Cut out the tags at right.
2. Apply a line of glue on the back of each Perler ornament as shown. Press the glued side onto the tag.

3. Cut a 10" length of thin cord and lace it through the ornament as shown. Tie the ends in a knot.
4. Use a chalk writer or metallic pen to add the To/From names. Tie the tag onto your gift.
