Use the needle to add the white yarn pieces, working through the holes indicated in the diagram. Don't knot the yarn on the front and don't trim it yet. You'll separate the yarn and trim it after assembling the pieces.

Assemble the pieces as shown. Use the needle to separate the yarn, then trim the yarn to the desired length to shape into a beard.

Glue the pompom to the bottom of the hat, then add the hanger. Your finished gnome is ready to display!
