2. Ask an adult to fuse your designs—see page 2 for further instructions.

## Assembly

You can finish the large heart with either the printed phrase provided or a photo. Use the heart outline around the phrase as a template.

Tape the phrase or photo in place on the back of the large heart. Add the keychain to the small heart.

Fusing Instructions—**Only Adults Iron**

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the pegboard. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely. Your pegboard and ironing paper are reusable.

**NOTE:** Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required.
