

YOU WILL NEED:

Pegboard:
Large square

Other:
Iron and ironing paper
Tweezers
Ribbon or thread
Glue gun

Bead Colors:
(quantities for the entire alphabet)

- Red - 1038
- Cranapple - 277
- Gold - 214
- Black - 310
- White - 354

Instructions

1. Decide which letters you want to use for your garland. If you are using a clear pegboard, slide the actual-size pattern underneath it. Place your beads on the pegboards as shown to create each of the letters.
2. Ask an adult to fuse your designs—see page 7 for further instructions.

3. Assembly: For a garland, hot glue (adults only, please) the letters to the ribbon, then hang in place. If you want to make hangers for your letters, insert embroidery thread through a bead hole with a blunt needle and tie a knot in the ends.

IDEAS:

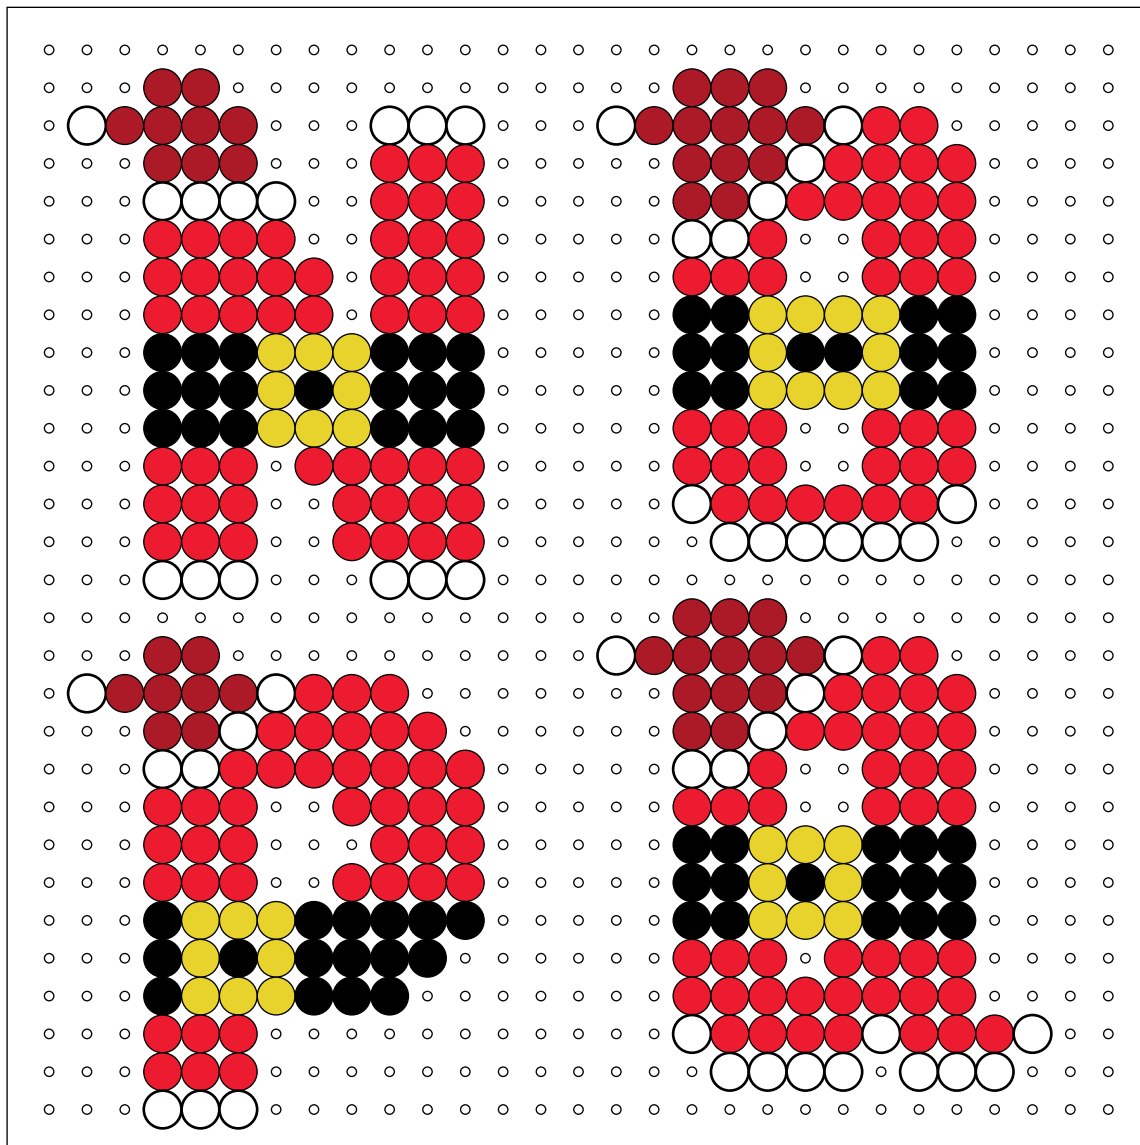

Use the letters to:

- Make a garland for a mantle, door, or office cubicle.
- Add a short message to a wreath.
- Add an initial as a package tie.
- Make a name or initials and glue to as stocking.

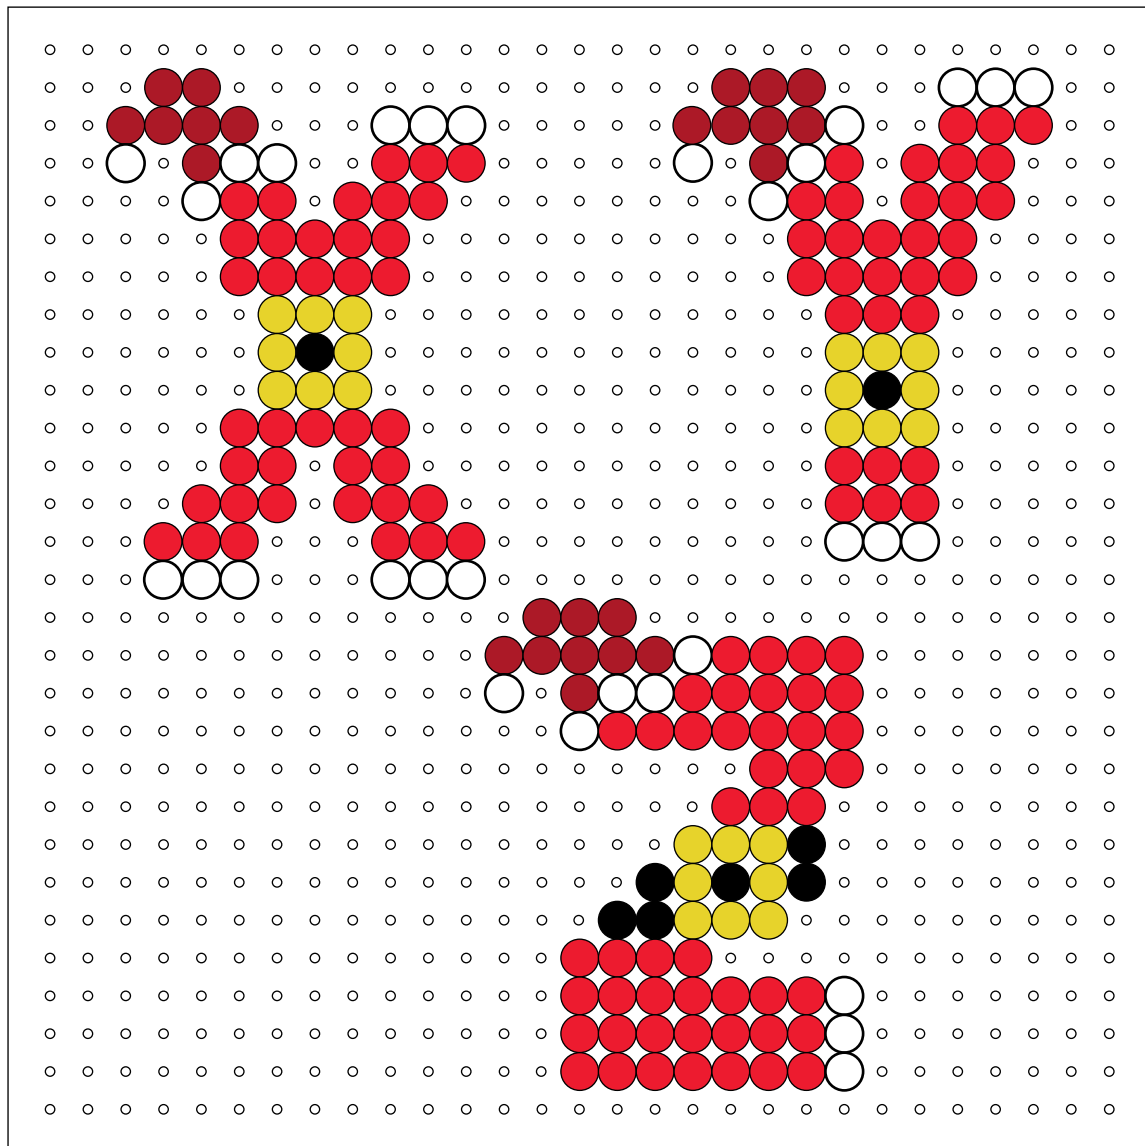

Fusing Instructions—**Only Adults Iron**

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely. Your pegboard and ironing paper are reusable.

NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required.
