

## YOU WILL NEED:

### Pegboards:

2 large squares

### Other:

Iron and ironing paper

Tweezers

Dowel rod and wood ball with hole

Gold paint and brush

Flat back crystals

Assorted coordinating ribbons

Coated wire or twist ties

Craft glue

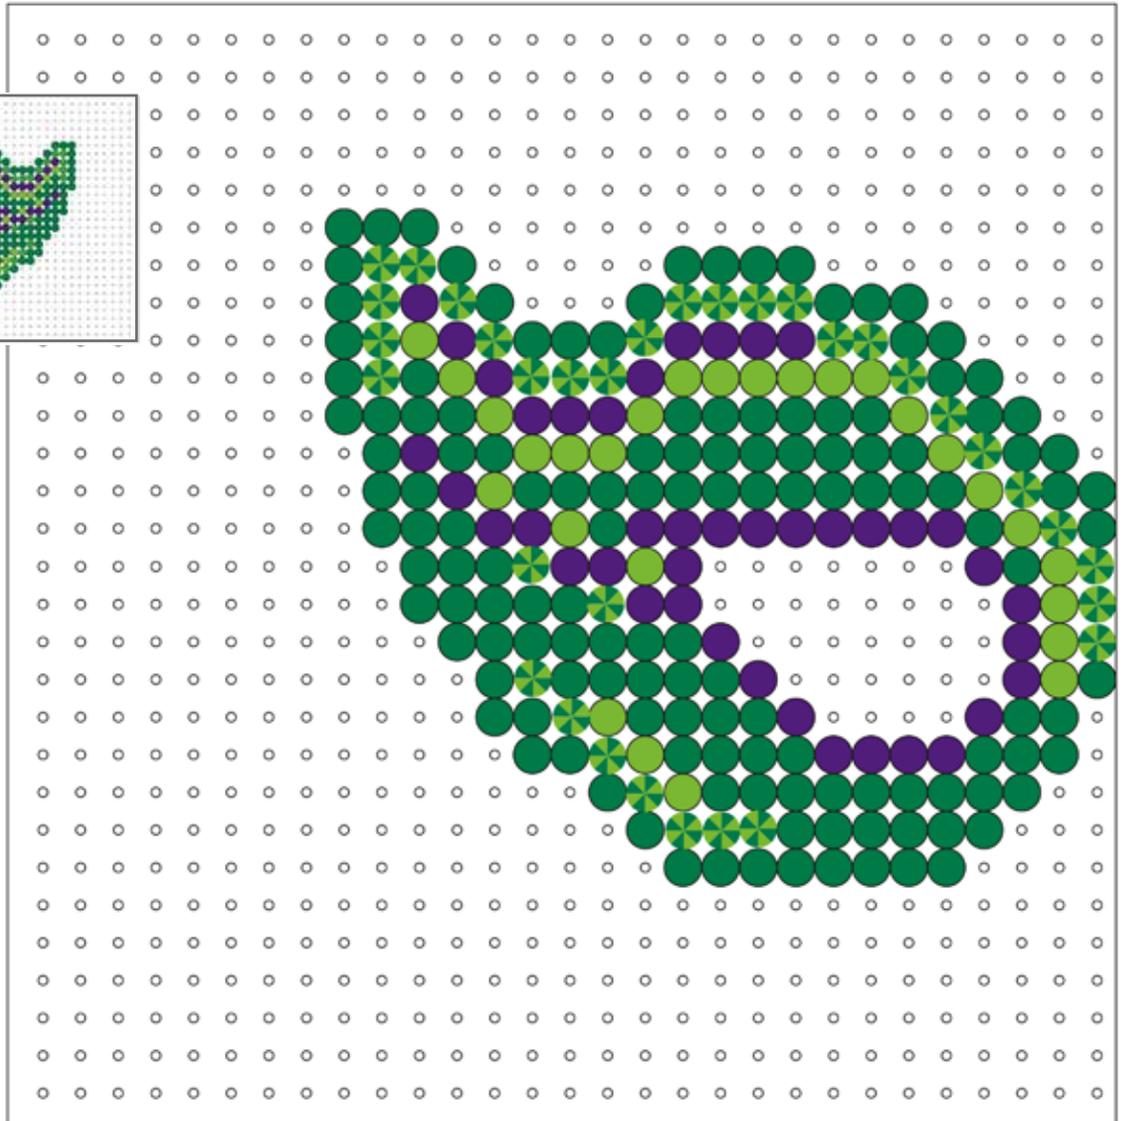

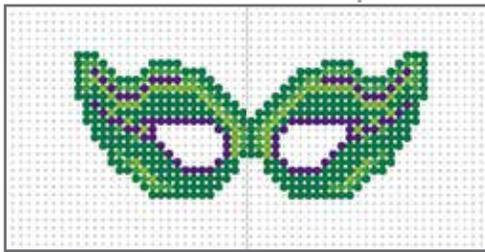

### Bead Colors:

● Kiwi Green - 54

● Cucumber Stripe - 68

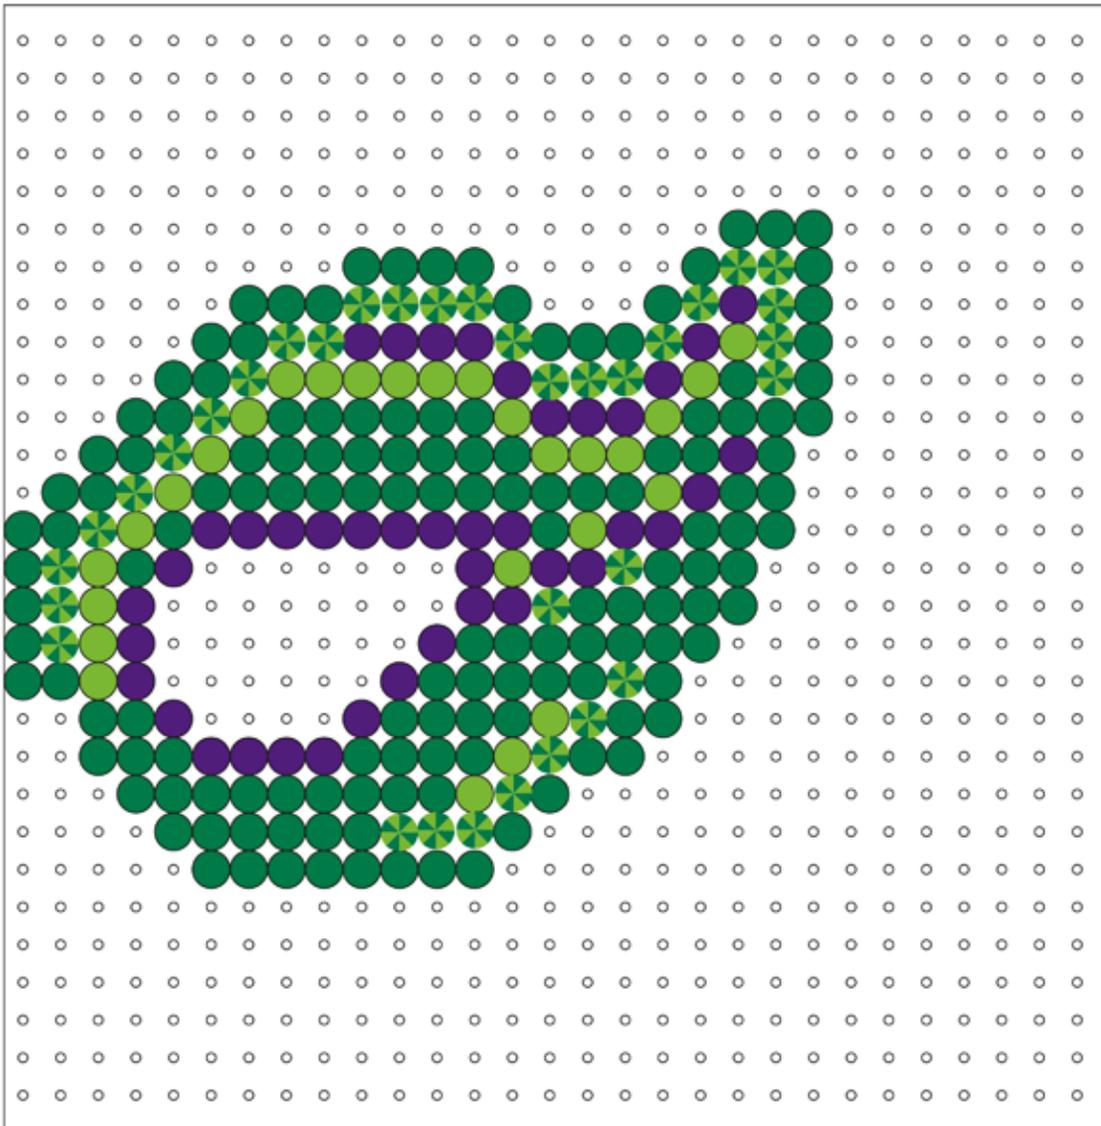

● Dark Green - 279

● Purple - 82

## Instructions

1. Assemble the two pegboards side by side as shown above. Cut out the two patterns pieces and tape together in the same arrangement. If you are using clear pegboards, slide the actual-size pattern underneath them. Place your beads on the pegboards as shown.
2. Ask an adult to fuse your designs—see page 2 for further instructions.
3. Assembly: see page 2.

## ASSEMBLY

1. Glue the ball to the dowel and paint the entire assembly in gold.
2. Glue crystals to the mask as desired.
2. Attach the fused mask to the dowel with wire or twist ties.
2. Using wire or twist ties, attach varying lengths of ribbon through the front of the mask.

## Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

**NOTE:** Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.
