

Instructions

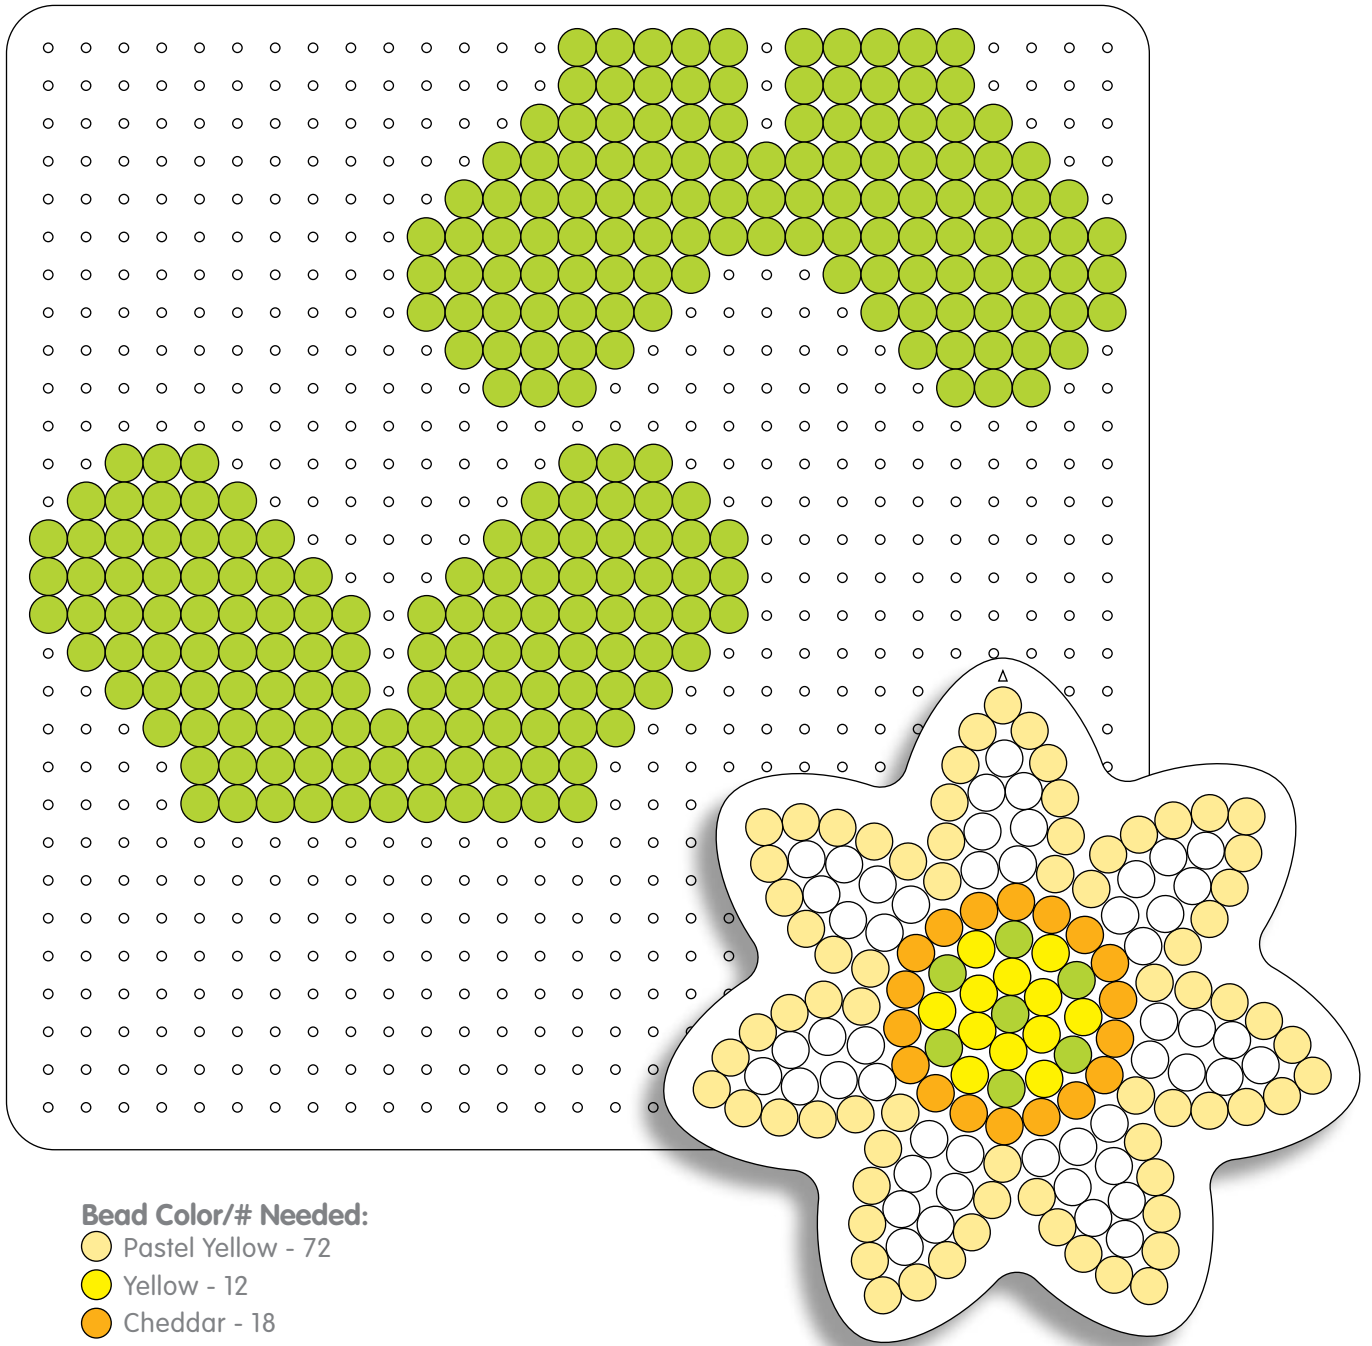

1. Use the large square, daisy, tulip, small circle, and small hexagon pegboards for your project. If you're using a clear pegboard, slide the actual-size pattern underneath it. Place all the beads for the design.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center. On a 3-D project such as this, DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make assembly difficult.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboard and ironing paper are reusable.

You will also need wire and a pencil to complete your project.

Bead Color/# Needed:

- Cheddar - 32
- Orange - 28
- Kiwi Lime - 153
- Turquoise - 24
- Purple - 17

ASSEMBLY

1. Create the springy stem by wrapping a length of wire around a pencil. Remove the coil from the pencil.

2. Insert one end of the coil into the bottom of the flower through the bead holes. Twist the end to secure.

3. Insert the other end of the coil in the center of a section of leaves in a similar manner.

4. Turn the two leaf sections at right angles to each other and slide together as shown.
