

## Bead Colors

● Fruit Punch	x 70	● Cotton Candy	x 58
● Apricot	x 57	● Prickly Pear	x 85
● Parrot Green	x 61	● Sky	x 57
● Iris	x 57	● Pastel Lavender	x 77

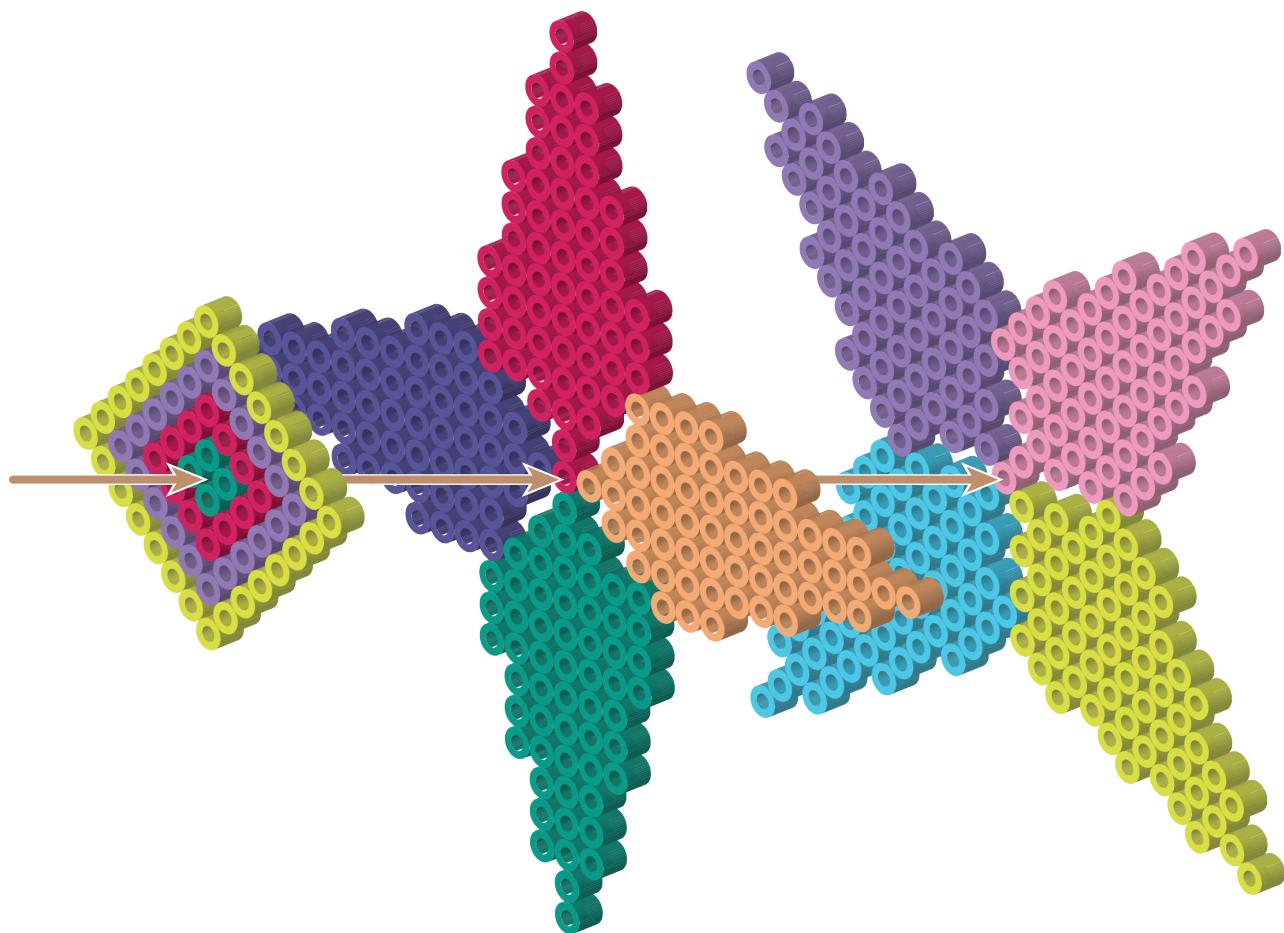

### Ironing Instructions

Beads should be fused together with a **dry** household iron by an **adult** only. Please keep children at a safe distance.

1. Place pegboard on flat, heat-safe surface.
2. Set iron to medium. Place ironing paper over beads and pegboard. Using a circular motion, iron for about 10-20 seconds. Larger projects may require more heating time. Do not press down on the iron. When ironed properly, beads will still have an open center. Let cool.
3. Remove ironing paper and bead design from pegboard. Flip design over to expose the non-fused side. Place ironing paper over design and iron again. To prevent bead design from warping, place a heavy book on top of design as it cools.

Note: Do not place iron directly against beads or pegboard. Pegboard is not designed for use in any type of oven; it will warp.

Pegboard and ironing paper are reusable.

After the pieces are fused, layer the components as shown and use craft glue to secure them together. Make sure the points indicated by the arrows align with each other.

Take a 24" length of craft wire and use needle-nose pliers to bend one end into a 1/2" diameter spiral. Feed the other end of the wire through the pieces. Bend the wire down along the back of the topper. Secure the wire to the topper back with craft glue. Wrap the remaining wire around the top tree branch to display your topper.
