Sea Spray Bracelet

- Bead Colors:**
- Toothpaste
 - Pastel Green
 - Light Green
 - Parrot Green

Instructions

1. Cut 2 pieces of twine each 30" long. Hold the two ends together and tie a knot about 7" from one end. The 7" end will be used to tie the finished bracelet on your wrist. Tape this end to your table for stability while you work.
2. Lay out your color design according to your wrist size (you can use more or fewer beads as needed). Pick up your first bead in your design and thread one end of the twine through it (about 2"). Thread the other piece of twine through the bead from the opposite direction. Pull the ends snug to hold the bead. Repeat this step with all of your beads. If adding decorative beads, use them in the same manner.
3. After the last bead has been threaded, pull the twine snug and tie a knot at the end. If you are adding a charm, tie it on now. Leaving 7" on this end of the bracelet also to tie onto your wrist, trim any excess.
4. To make a tassel, see page 2.

Cotton Candy Bracelet

Citrus Punch Bracelet

Bead Colors:

- Pearl Coral
- Blush
- Hot Coral
- Yellow

Instructions

1. Cut 2 pieces of twine each 30" long. Hold the two ends together and tie a knot about 7" from one end. The 7" end will be used to tie the finished bracelet on your wrist. Tape this end to your table for stability while you work.

2. Lay out your color design according to your wrist size (you can use more or fewer beads as needed). Pick up your first bead in your design and thread one end of the twine through it (about 2"). Thread the other piece of twine through the bead from the opposite direction. Pull the ends snug to hold the bead. Next, thread a bead onto each individual piece of twine. Then, thread one bead with both pieces of twine again. Repeat this pattern with all of your beads.

3. After the last bead has been threaded, pull the twine snug and tie a knot at the end. If you are adding a charm, tie it on now. Leaving 7" on this end of the bracelet also to tie onto your wrist, trim any excess.

Making a Tassel

1. Wrap twine around your four fingers about 15 times and cut from spool.

2. Carefully slip the twine bundle off your hand. Tie a 6" piece of twine around the center of the bundle. DO NOT TRIM.

3. Fold the bundle in half at the tie and pull the ends together. Use another 6" piece of twine to tie the bundle about 1/4" down from the knot and finish with a square knot.

4. Trim tassel ends to the desired length. Use the top twine ends to attach the tassel to your bracelet.
