

Instructions

1. Use the small hexagon pegboard for your project. If you're using a clear pegboard, slide the actual-size pattern underneath it. Place all the beads for the design.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboard and ironing paper are reusable.

Bead Color/# Needed:

-  Magenta - 12
-  Red - 3
-  Cheddar - 47
-  Kiwi Lime - 17
-  Pastel Blue - 68
-  Light Blue - 5
-  White - 16

NOTE: Tasha was a little girl when she made this ducky for her aunt, freelance photographer Yunghi Kim based in New York. Yunghi Kim has worked all over the world photographing monumental events in our history, and in her field pouch carried Tasha's ducky as a link to home and family. The ducky has been to the Great Wall of China, Nepal, Poland,

Vatican City, the Middle East, the flood zone of New Orleans, and more. When Yunghi would have a spare moment, she would take a picture of the ducky in whatever place her latest assignment had taken her. She would send the photos to her family as a sort of travelogue of the world and an inspiration of "how far a little ducky can go in it".
