

The Pond is Alive!

You will need cardboard and craft glue to complete your project.

Instructions

1. Using the small square or the small heart pegboard as indicated, place all the beads for your project.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboard and ironing paper are reusable.
4. Download and print out the PondSceneBkgd.pdf. If you wish to make a sturdy picture to hang on the wall, glue the background print to cardboard. Arrange your bead animals in the scene and use craft glue to secure them in place.
