

**Instructions**

1. Use the large square, large hexagon, and small heart pegboards for your projects. If you're using a clear pegboard, slide the actual-size pattern underneath it. Place all the beads for the design.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboards and ironing paper are reusable.

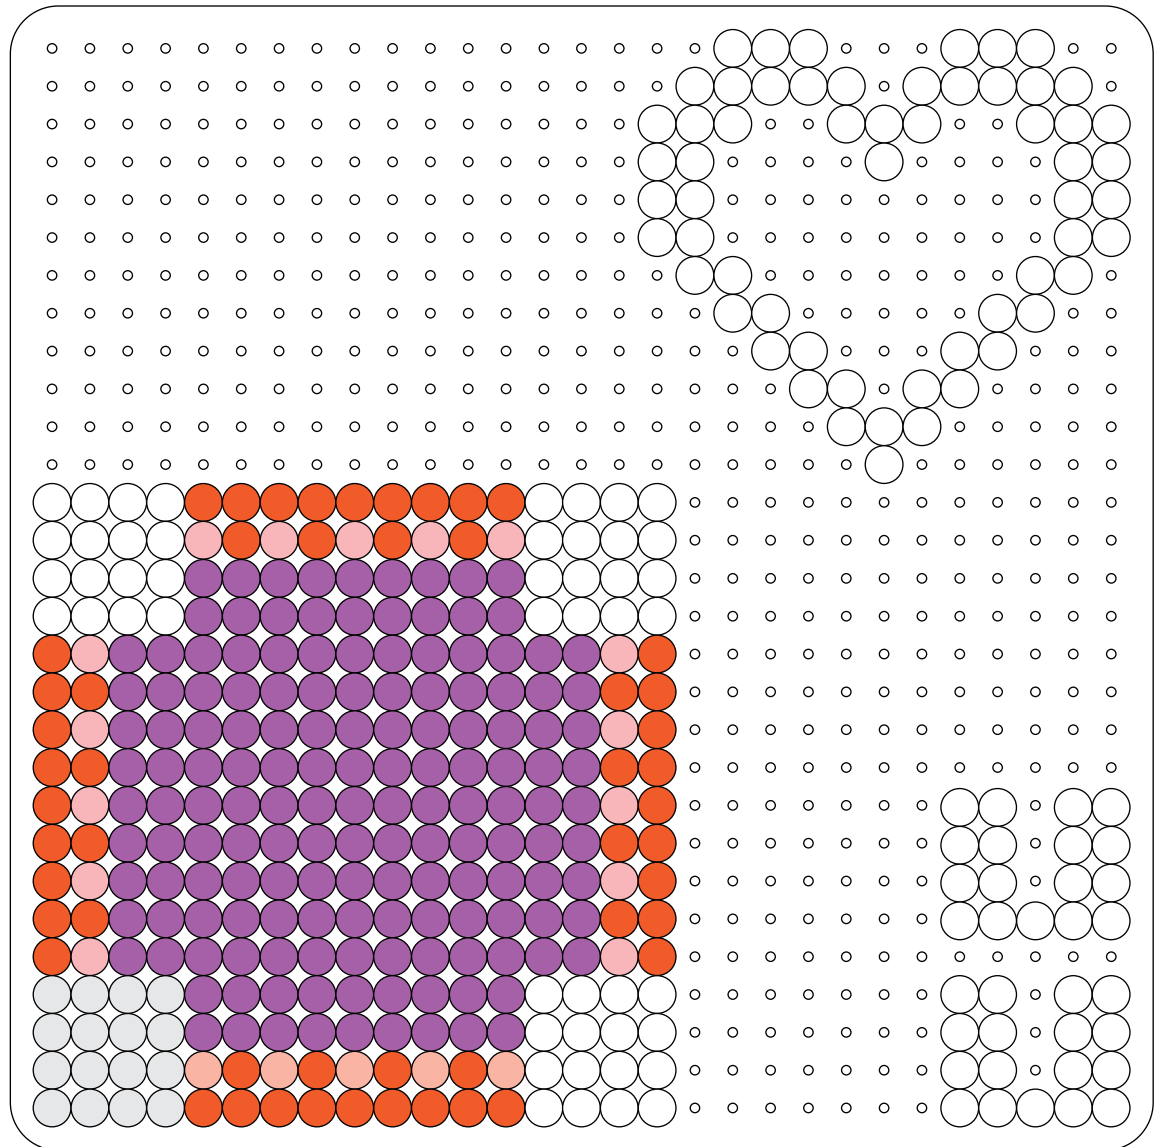

**You will also need a photo and craft glue to complete your projects.**
