

**Instructions**

1. Using the large hexagon and the small circle pegboards, place all the beads for your project.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center. On a 3-D project such as this, **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make assembly difficult.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboard and ironing paper are reusable.

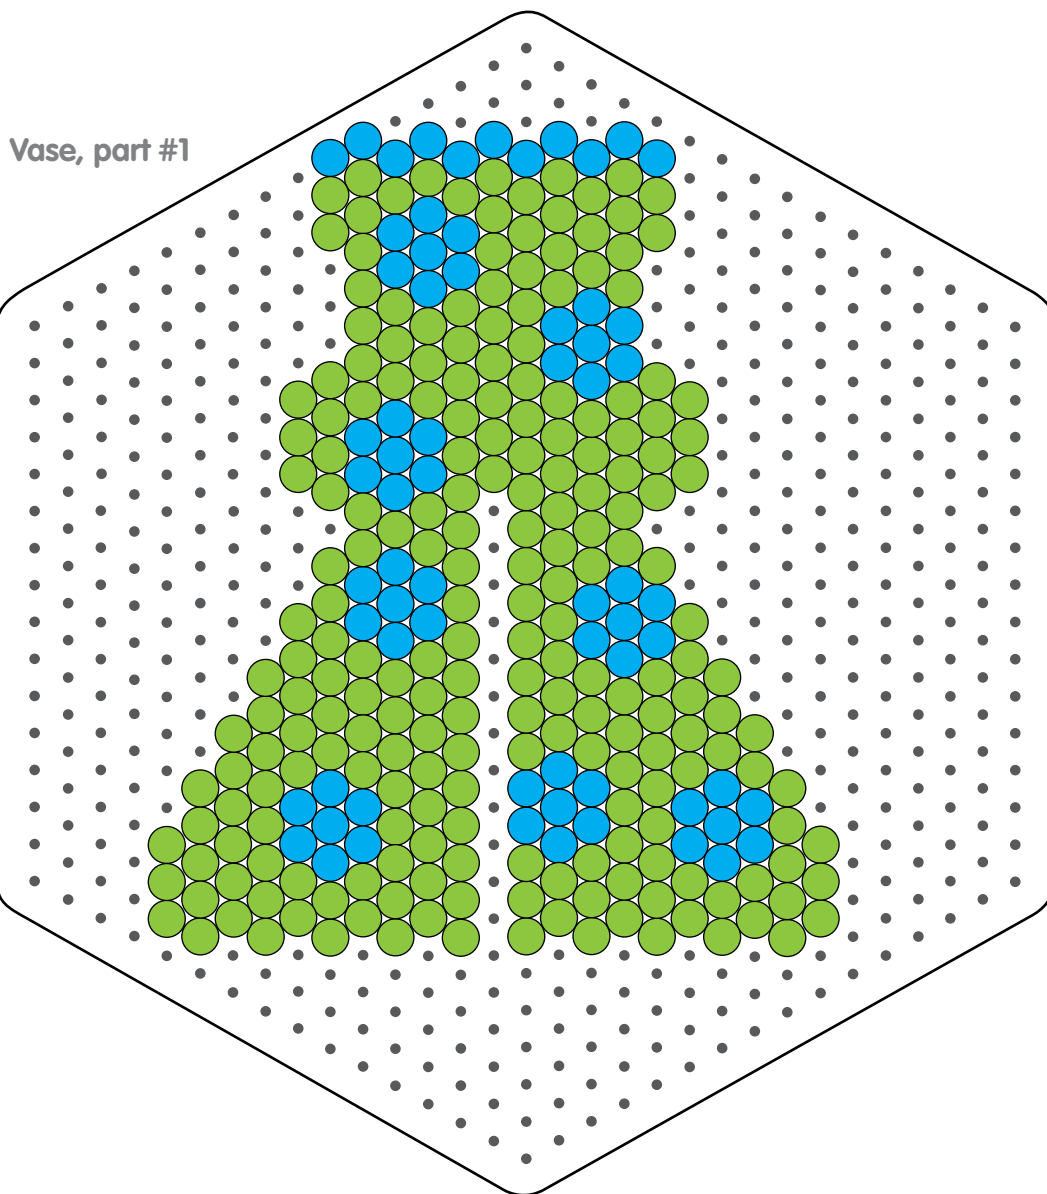

**NOTE:** You will also need 30" of 20-gauge copper wire and a pencil to assemble this project.

**Bead Colors/Qtys Needed:**

-  Magenta - 109
-  Yellow - 66
-  Kiwi Lime - 86
-  Light Blue - 60

## Assembly

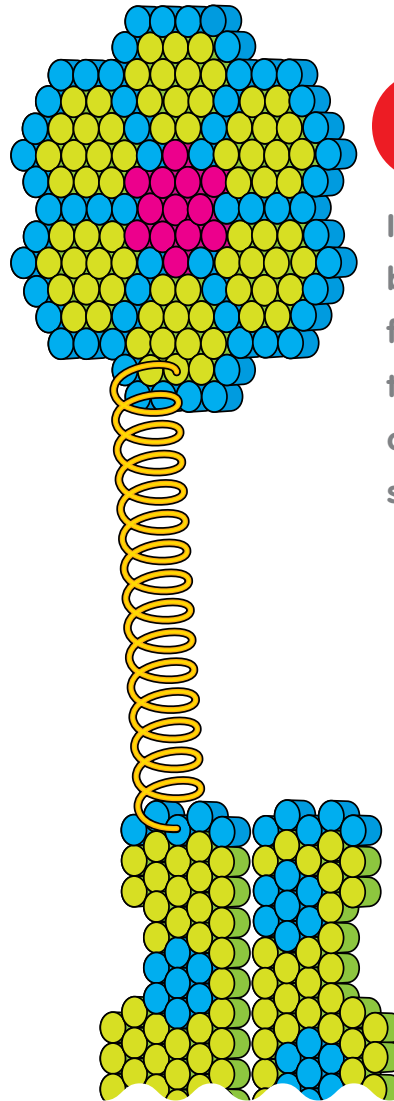

**1**

Turn the completed vase pieces at right angles to each other. Align the slots and slide together.

**2**

Cut the wire into three equal lengths. Take each length separately and wrap it around the pencil as shown to create a coil.

**3**

Insert one end of a coil into a bead close to the bottom of a flower. Insert the other end of the coil into a bead at the top of the vase. Bend the ends to secure the coil.
