

## YOU WILL NEED:

**Pegboards:**  
5 large squares

## Bead Colors:

- White - 1936
- ⊕ Silver Pearl Stripe - 285

**Other:**  
Red bow and ribbon  
Small jingle bells  
Large adhesive gem  
Red/white twine  
Craft glue  
Scissors  
Clear tape

## Instructions

1. Some of the patterns require all 2 or 5 boards to be assembled as shown here. Cut these patterns out and tape together in the same way. If you are using clear pegboards, slide the actual-size pattern underneath them. Place your beads on the pegboards as shown.

2. Ask an adult to fuse your designs—see below for further instructions.

3. Assembly: see page 10.

## Fusing Instructions

Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

Front Legs

**NOTE:** Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.

Head

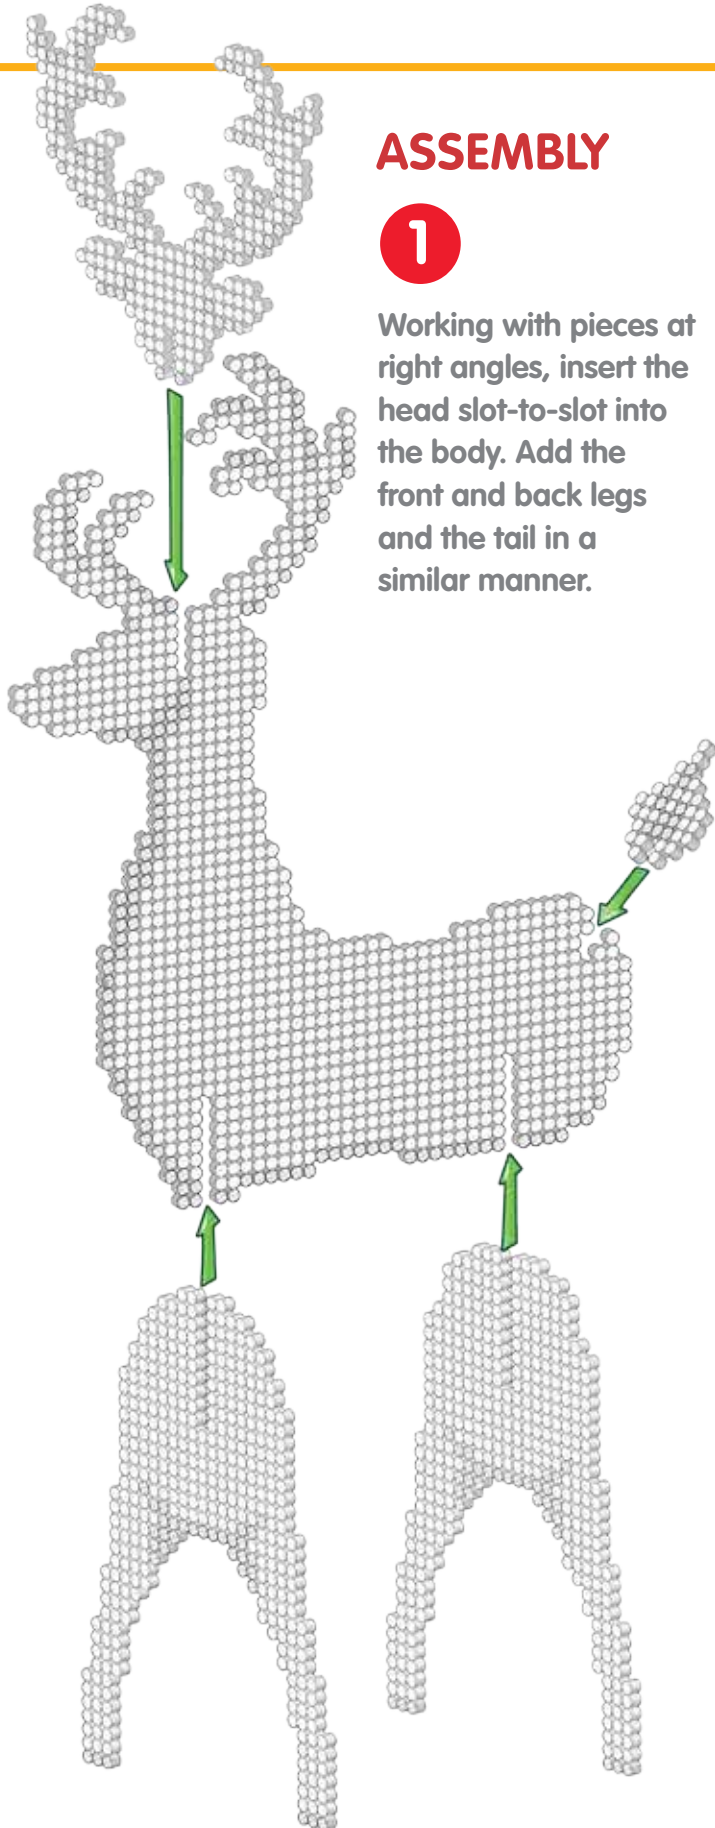

### Front Legs

### Back Legs

## ASSEMBLY

**1**

Working with pieces at right angles, insert the head slot-to-slot into the body. Add the front and back legs and the tail in a similar manner.

**2**

Thread the bells onto the red/white twine and knot each individually, spacing them a few inches apart. Glue the center of the twine to the back of your bow.

**3**

Add an adhesive gem to the center of the bow. Tie the bow around the reindeer's neck.
