Instructions

1. Download the world icon templates. Using two large interlocking pegboards (or can use two large square pegboards) create your world icon project for Paris' Eiffel Tower, New York's Statue of Liberty and Empire State Building, London's Big Ben or San Francisco's Golden Gate Bridge .
2. Cover each completed piece with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly.

Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2.
